## THE FACE OF MATCHMAKING

*Kelly Leary, M.S., Revolution Dating*

Matchmaking has become a household term, much like doctor and dentist, especially during our post-pandemic era. Online dating, catfishing, ghosting, and cheating have all negatively impacted people's love lives. We have been forced to seek out new avenues to find love and romance. Simply put, people have rediscovered the value of traditional courtship and relationships. If we were not before, we are definitely ready for true love again. So, what is a quality single to do?

Enter: The Florida Matchmaker! Kelly has perfected the art of romantic connection with more than 30 years of experience in the dating industry. This matchmaker extraordinaire has helped hundreds of men and women meet their other half and live happily ever after. Blending her decades of expertise with a master's degree in clinical psychology and an irresistibly upbeat personality, Kelly and her team at Revolution Dating continue to bring true love to Treasure Coast singles of all ages.

Kelly has been awarded the *Florida Woman* title as well as multiple other honors and accolades. She is also a journalist and has a well-read column "The Singles Scene," which she has been writing for over 12 years. Kelly has been featured in *The Palm Beach Post*, *Stuart News*, *Jupiter Magazine*, *Vero Beach 32963 News* and *Palm Beacher Magazine*, and has graced the cover of several publications over the years.

Kelly is committed to sharing her love in the community through charity work and dedicated philanthropy. She and the team participate yearly

in a variety of events focusing on the greater good. The aim is to give back through deserving organizations such as the Tri-County Animal Rescue, the Susan G. Komen Foundation for Breast Cancer Awareness Month in October, and The Leukemia & Lymphoma Society.

Under Kelly's exceptional leadership, Revolution Dating has grown steadily and revolutionized the Florida dating scene. The company was named "The Best Matchmaker" by *Florida Weekly* and also won *TC Palm's* "Treasure Coast Choice Award" for best Matchmaking Service.

This incredible woman and her team have not only adapted, but also thrived through the pandemic. Kelly explains: "Research shows many people experience an increased desire to connect during challenging times. Extreme emotional situations can actually be an elixir for love and bonding. During the new normal, love still wins! We are happy to report that we have been instrumental in helping people find love and even become engaged and married all during COVID." Looking to position yourself to meet the right people? There is no time like the present. Feel free to give yourself the gift of love before the holidays. Make your private appointment today.
